- We live the dream and have brought many visions to life. Eike has honed the process and has taken many projects from simple ideas to winning awards, including **Apple Featured "Best New App", Dr. Toy 10 Best Tech, Parents Choice Gold, IAC Internet Ad Award to Google featured AR launch title.**

#### smartR AI

[www.smartR.ai](http://www.smartR.ai)

- smartR AI skill base lies in **behavioral intelligence, interconnections to IoT and smart devices, generative AI,** online applications, along with how AI applications can be used optimally to understand, interpret, predict, and respond to complex scenarios.

### THE EIKE-SMARTR WAY

Together, Eike-smartR are focusing on using Artificial Intelligence, such as machine learning, deep learning, and reinforcement learning, to solve complex real-world problems and optimize decision-making. We have the knowledge and expertise to develop applications unlocking the power of behavioral intelligence by leveraging AI to understand, interpret, predict, and respond to complex scenarios.

With Eike's multi-platform proficiency, experience in iOS and Androids, web, infrastructure, database adeptness, and the ability to meet all technical development needs, coupled with smartR AI's skills in developing AI applications based on the evolution of interactions, behavior changes, and emotion detection, we are a dynamic duo. As intelligence moves to the edge of the network, we can help you bring your vision to life the smartest way.
